

The Board for Contractors Regulations, effective Dec.1, 2012, requires all contractors who perform installation-type work on manufactured homes to have the Manufactured Home Contracting (MHC) specialty license.

The Virginia Department of Housing and Community Development has added an additional class for certification of installation of HUD code Manufactured Homes.

If you currently hold the Manufactured/Modular Building Contractor (MBC) specialty and have taken this class, you will automatically receive the MHC specialty on your license.

If you have not taken this class, or if you intend on getting the MHC specialty, you will need to have this training. The Manufactured Housing Installation Program will be held at the Virginia Housing Center, 4224 Cox Road, Glen Allen, VA 23060 on Feb. 26, 2013 from 8 a.m.-5 p.m. The cost to attend is \$150, which includes lunch, and is refundable two weeks prior to start date. Please make checks payable to the Treasurer of Virginia, and mail them to Main street Centre, 600 East Main Street, Suite 300, Richmond, VA 23219. You may also pay by credit card at the registration site. For more information, contact Lorenzo Dyer at (804) 371-7163 or [lorenzo.dyer@dhcd.virginia.gov](mailto:lorenzo.dyer@dhcd.virginia.gov)
